Radiation and Environmental Biophysics

The Journal Biophysik, edited by B. Rajewsky, was founded in 1963. With Volume 11 (1974) the name Radiation and Environmental Biophysics was adopted. H. Muth was Managing Editor from Volume 7 (1970) to Volume 18/1 (1980), U. Hagen from Volume 18/2 (1980), and U. Hagen and A. M. Kellerer jointly from Volume 33/3 (1994).

This journal is included in the Springer Journals Preview Service, i.e. the tables of contents and BiblioAbstracts are available via Internet several weeks before the issue reaches the subscribers. Tables of contents are free of charge; BiblioAbstracts are available for a small annual fee. Details can be obtained by sending an e-mail message containing the line help to svjps@vax.ntp.springer.de.
